

Dear 8th Grade Parents/Guardians,

To help with the transition to high school and to assist in the scheduling process we will hold an **8th into 9th Grade Transition Meeting** for families on January 18, 2023 at the Mentor High School Fine Arts Center. The presentation begins at 6:00 pm. We will discuss the high school in general, graduation requirements, differences between high school and middle school and educational and extracurricular opportunities. Our department coordinators will answer frequently asked questions and answer your individual questions following the presentation as well.

The presentation will be filmed and put on Cardinal TV in the event you are unable to attend or would like to refer back to any information.

High school is an extremely important time in the lives of our students in terms of their academic, intellectual, social-emotional and overall development and we relish the role we have in the development of your child. Please do not hesitate to contact us with any questions you may have now and throughout their high school experience. We are excited to get to know and welcome the Class of 2027!

Sincerely,

Jason Crowe
Principal
Mentor High School
